

**Zoloft has helped millions with depression. This is Cynthia's story.**

CYNTHIA S. AGE 57. PORTLAND, WA.\*

\*Story not based on actual person.

When Tom and I divorced, I felt relieved, scared and sad at the same time. But only the sadness stayed.

My life seemed so pointless and lost. The scariest part? I felt that way for a long time.

When I saw my doctor, he said that my physical health was fine.

But he said that I was suffering with depression. He told me about the millions of people like me who have been helped with Zoloft.

It's the number one prescribed brand for depression and anxiety. He told me that Zoloft comes in three prescription strengths and prescribed a dose for me.

After living with depression for so long... and now living without it, I ask myself, "Why did I wait so long to get help?"

**Depression is a serious medical condition, which can lead to the risk of suicidal thoughts and behavior. A combined analysis of studies involving 9 antidepressants showed that in people under 18 this risk was 4% for those taking antidepressants compared to 2% for those taking a sugar pill. This risk must be balanced with the medical need. Those starting medication should be watched closely for suicidal thoughts, worsening of depression, or unusual changes in behavior. In children and teens, ZOLOFT is only approved for use in those with obsessive-compulsive disorder.**

**Zoloft<sup>®</sup>**  
(sertraline HCl)

#1 for millions of reasons.  
[www.zoloft.com](http://www.zoloft.com)

ZOLOFT is not for everyone. People taking MAOIs or pimozide shouldn't take ZOLOFT. Side effects may include dry mouth, insomnia, sexual side effects, diarrhea, nausea and sleepiness. In studies, few people were bothered enough by side effects to stop taking ZOLOFT. ZOLOFT is not habit forming and is not associated with weight gain.

So talk to your doctor about how ZOLOFT might help you. ZOLOFT comes in 25mg, 50mg, and 100mg tablets. You and your doctor can discuss the dose for you. For more information, please see the following page, call 1-800-6-ZOLOFT (696-5638) or visit ZOLOFT.com.

**Important Information:** ZOLOFT is one of the treatment options that you and your doctor may consider.

Uninsured? Need help paying for medicine? Pfizer has programs that can help, no matter your age or income. You may even qualify for free Pfizer medicines. Call 1-866-706-2400. Or visit [www.pfizerhelpfulanswers.com](http://www.pfizerhelpfulanswers.com).
